

## Maintenance

MARTIN ASSOCIATES BROKERAGE created an in-house Maintenance Division to provide outstanding customer service to both our owners and tenants.

Our Maintenance Division is involved in the day-to-day operations of the property. They ensure that the property is being maintained properly by performing weekly exterior inspections and continual preventative maintenance. We also provide day porter service, which includes interior inspections and maintenance.

Commercial properties have seen a tremendous growth the past year, which makes it more important to keep a property aesthetically pleasing and well maintained.

**For more information please contact Gary Price in the Maintenance section of our [contact \[1\]](#) page for more information. Or [click here \[2\]](#) to email him directly.**
