

Property Management

MARTIN ASSOCIATES BROKERAGE

PROPERTY MANAGEMENT DIVISION

Martin Associates Brokerage Commercial Property Management was created in response to the needs of our Owners. Each property is as unique as its owner, therefore, we tailor our services to benefit each property's special needs.

Our personal style, attention to details, quick responsiveness, and our open communication with both owners and tenants have been the "tools" with which we used to create both a successful managed property and a successful management company.
